

The Montessori Program at The Campus School of Carlow University is located at 3333 Fifth Avenue, Pittsburgh PA, 15213, in Oakland, the heart of the city's university and medical center communities.

The school educates children from ages 3 to 6 and 6 to 9 in accordance with the Montessori Method.

Visit our website at www.campusschool.carlow.edu or contact Stephanie Conrad to schedule a visit. Stephanie Conrad can be reached at 412-578-6158 or sconrad@carlow.edu.

Here is what parents are saying about The Montessori Program at The Campus School of Carlow University

*"When my husband and I were deciding on a Pre-K program I felt slightly overwhelmed by the many choices we had available to us. Many of our neighbors were happy with the programs in which their children were attending but none was overly excited. I remembered some of my closest friends from different parts of the United States talking about what a wonderful experience their children had in Montessori programs. Having spent 16 years as an educator I certainly thought I knew what to expect. It was nothing like I had expected! From the first moment our son walked through the door we knew we made the best choice. He is thriving and is so excited to go to school each day. I have become a vocal cheerleader for **The Montessori program at Carlow Campus School**. It has been a true blessing."*

Sincerely,
Mimi Perez

*"Our daughter is thriving in **Carlow's Montessori program**. She loves her classmates, her teachers and her "jobs" and we are very pleased with her progress. We think that, as an only child, she has benefited from the opportunity to be friends with and learn from the older children in her class. We love the **Carlow Montessori program!**"*

Regards,
Charlie Masterson

*"**Montessori** inspires our children to be actively engaged in the process of learning. **Montessori** reinforces the idea of community and connectedness to others from their class, to their city, country and world. **Montessori** allows our children to feel special by nurturing their individual talents. "*

Brian Suffoletto, MD MS

“The Montessori Program at the Carlow Campus School is an outstanding program. The dedication, diligence, and love of children by the Montessori teachers, created an environment where both of our children (son now 8 and daughter 7) developed a love for learning, the disciplines required to learn and incredible math and language skills. Thanks to the program and the structures the teachers provide, these skills will translate into a happier, more productive future for our children.”

David and Katy Caliguri

“The child is both a hope and a promise for mankind.” Maria Montessori
